| E: Dewford Town    | K: Fortree City    |                     |
| F: Slateport City  | L: Lilycove City   |                     |

## Welcome to the Hoenn Region!

This region is not like any you've seen before. Brand new Pokémon await for you to befriend, train, battle, and care for them. This guide will help you to become the Hoenn League Champion. Each page will contain advantages you can use to defeat each Gym Leader, Elite Four and finally the current Champion.

Be careful out there, Team Magma and Team Auqa are quite a handful. They seem to be causing more trouble than usual so if you see them, try not to engage them. Unless you feel up to the challenge!

**Good Luck!**

*Leader: Steven*

*Type: Steel*

Steven is president of Devon Corp., and avidly researches Pokémon.

Fire, Fighting, and Ground types will help knock out his Metagross.

Grass, Ice, Flying, Psychic, Bug, Rock, Dragon, Fairy and other Steel types won't do much damage. However,

Poison won't deal any damage at all.

**Elite Four Champion**

# Elite Four

*Trainer: Drake*

*Type: Dragon*

When Drake was a child, a Dragon Pokémon saved his life. Since then, he's dedicated himself to learning everything about Dragons and train the strongest there is so they can help others as well. Ice, Fairy and other Dragon types will help you defeat Drake. Fire, Water, Electric, and Grass won't do much to his Salamence.

*Leader: Roxanne*

*Type: Rock*

After graduating top of her class from the Pokémon Trainers School, Roxanne is eager to put her skills to the test. Water, Grass, Fighting, Ground and Steel types will work the best for this gym. Normal, Fire, Poison, and Bug will only deal half damage.

## Rustboro City

# Dewford Town

*Leader: Brawly*

*Type: Fighting*

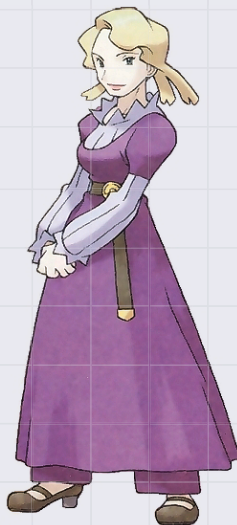

Brawly loves the water, but he also loves fighting. Don't be intimidated by the darkness of the gym, just navigate the maze and reach him. Flying, Psychic, and Fairy types will work best against this leader. Bug, Rock and Dark will not be very useful against him.

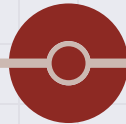

*Trainer: Glacia*

*Type: Ice*

Glacia has traveled all around the world, even to some regions that haven't been mapped before. She has an icy heart that will crush most trainers who challenge her. Fire, Fighting, Rock and Steel will deal the most damage. If you use another Ice type, you'll have a tough time defeating her Walrein.

## Elite Four

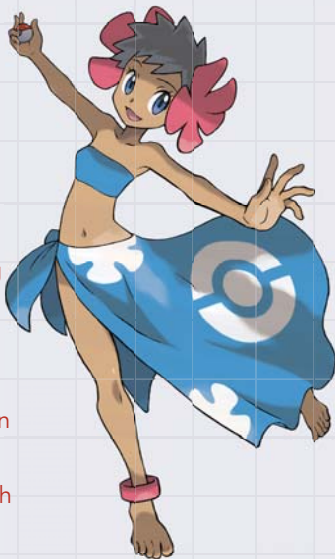

# Elite Four

*Trainer: Phoebe*

*Type: Ghost*

During her training on Mt. Pyre, Phoebe gained the ability to commune with Ghost type Pokémon, making their bond strong.

Dark and other Ghost types will be the most effective in taking down her Dusclops. Poison and Bug won't do much damage and Fighting and Normal won't deal any damage at all.

*Leader: Wattson*

*Type: Electric*

Brawly loves the water, but he also loves fighting. Don't be intimidated by the darkness of the gym, just navigate the maze and reach him. Flying, Psychic, and Fairy types will work best against this leader. Bug, Rock and Dark will not be very useful against him.

## Mauville City

# Lavaridge Town

*Leader: Flannery*

*Type: Fire*

Known for her beauty and strength, Flannery is a hot-tempered leader. She hasn't been a leader for long but fights with a force as strong as a volcano. Water, Ground, and Rock types will help take down her Torkoal. Other Fire, Grass, Ice, Bug and Steel types won't deal a lot of damage.

*Trainer: Sidney*

*Type: Dark*

Sidney loves to battle, but he also doesn't mind if he loses. Don't let that fool you though, his team is quite a challenge. A Fighting, Bug or Fairy type will take out his Absol. Ghost and other Dark types won't do much damage. Psychic types won't have any effect on his Pokémon at all.

## Elite Four

# Sootopolis City

*Leader: Wallace*

*Type: Water*

Wallace has been entrusted to protect the ancient Cave of Origin. He has trained his Pokémon beyond their limits so they are a tough challenge. Electric and Grass types will help you defeat Wallace. Fire, Ice, Steel, and other Water types won't be as effective at knocking out his Milotic.

*Leader: Norman*

*Type: Normal*

Norman lives to train his Pokémon. He trains with them physically, making sure they are in top shape to challenge any trainer who comes by. Use a Fighting Pokémon to assure victory. Ghost types will have no effect on his Slaking.

# Petalburg City

## Fortree City

*Leader: Winona*

*Type: Flying*

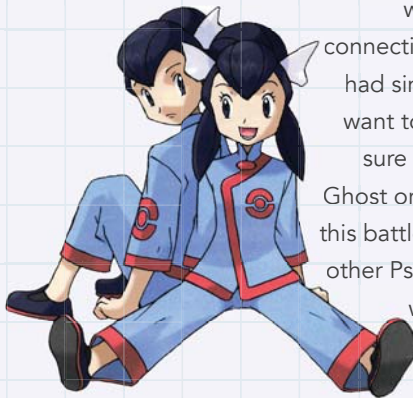

Full of grace and beauty, Winona looks almost like a bird moving through air as she moves. As well as with the ferocity a bird can attack with. Use an Electric, Ice, or Rock type to help you beat this leader. Grass, Fighting and Bug won't help much.

*Leader: Tate & Liza*

*Type: Psychic*

These twins can predict each other's thoughts with their psychic connection that they've had since birth. If you want to beat them be sure to bring a Bug, Ghost or Dark type into this battle. Fighting and other Psychic Pokémon won't do much.

## Mossdeep City
