Johto League

How to Beat the Gym
Leaders and the
Elite Four.

Welcome to the Johto Region!

Here you will have an experience like no other. Tough trainers, amazing cities, and friendly residents. This guide will help you battle through the different Gyms so you can get your badges to challenge the Elite Four. Each page will contain an advantage you can use against the leader to defeat them. We aren't going to give you everything though. You do need to learn something from this adventure!

Be wary of Team Rocket through your time in Johto. They are notorious for trying to steal your Pokémon! Unless you're up for the challenge, you might want to leave them to Officer Jenny.

Good Luck!

Elite Four Champion Lance

Type: Dragon

Lance has a team made up of Dragon type Pokémon. He is proud and takes pride in being the Champion, so this battle will be your toughest yet. Ice, Fairy, and other Dragon types will help take down his Dragonite. Fire, Water, Electric, and Grass won't do much to his Dragonite. The same strategy as Claire will help you become the Johto Champion.

Elite Four: Karen

Type: Dark

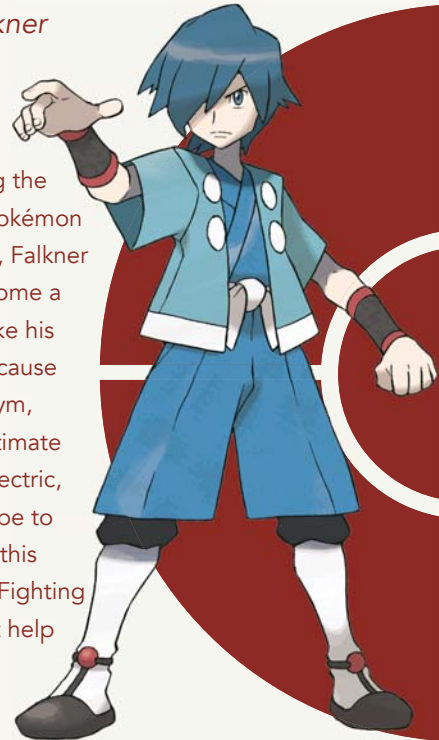

Karen believes that there is no such thing as weak or strong Pokémon. She believes that you should fight with the ones you love most, so her team has her closest friends. Fighting, Bug and Fairy types will take down Karen's Houndoom. Ghost and other Dark types won't do a lot of damage. Psychic won't deal any damage.

Violet City

Leader: Falkner

Type: Flying

After inheriting the gym and his Pokémon from his father, Falkner aspires to become a great leader like his father. Just because he's the first gym, don't underestimate him. Use an Electric, Ice, or Rock type to help you beat this leader. Grass, Fighting and Bug won't help much.

Azalea Town

Leader: Bugsy

Type: Bug

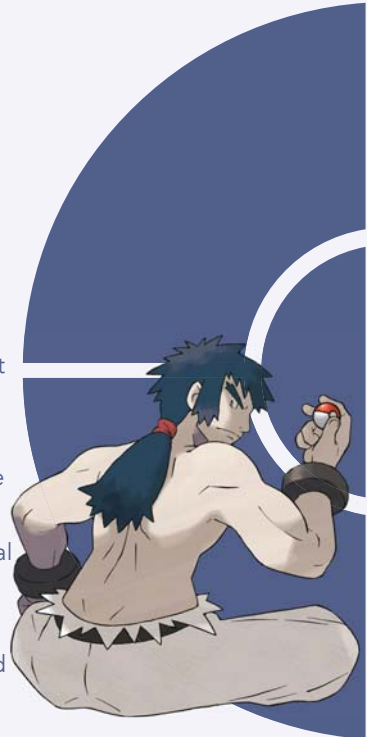

Bugsy is the authority on bug Pokémon. His discovery of the move Fury Cutter makes his Scyther tough to beat. Be sure to have a fire, flying, or rock type in your party to beat him. Grass, fighting, and ground are not very effective against his bug army.

Elite Four: Bruno

Type: Fighting

Bruno takes his Pokémon's training and his own very seriously. He trains against his own Onix, confident in his own physical strength. Just like Chuck, Flying, Psychic and Fairy Pokémon will deal the most damage. Bug and Rock will only deal half damage. Use the same strategy as with Chuck and you should have no problems.

Elite Four: Koga

Type: Poison

Known as the Poisonous Ninja Master, this former gym leader is a master at status effect attacks. This Against Koga, you'll want to have a Ground or a Psychic Pokémon on your team. Grass, Fighting, Bug, Fairy, and other Poison types won't be useful.

Goldenrod City

Leader: Whitney

Type: Normal

Although she hasn't been battling long, her skills attracted the attention of the Pokémon League. She may look cute, but she's a tough opponent. Use a Fighting Pokémon to assure victory. Ghost types will have no effect on her Miltank

Ecruteak City

Leader: Morty

Type: Ghost

From a young age, Morty has had an obsession with the legendary Pokémon.

Living in the city where there's a shrine to Ho-Oh has enabled him to study the great bird. Dark and other Ghost types will be super effective against Morty's Gengar. Poison and Bug won't be very effective. Normal and Fighting won't have any effect.

Elite Four: Will

Type: Psychic

Will is known for his peculiar fashion sense and the mystery of his mask. If you want to beat his Xatu, be sure to bring a Bug, Ghost or Dark type into this battle. Fighting and other Psychic Pokémon won't do much damage.

Blackthorn City

Leader: Claire

Type: Dragon

Claire has come from a long lineage of Dragon trainers, one of which is the current Champion, Lance.

She is stubborn and doesn't give up. You'll have to pass her test to prove your worth and it won't be easy.

Ice, Fairy and other Dragon types will help you defeat Claire. Fire, Water, Electric, and Grass won't do much to her Kingdra.

Cianwood City

Leader: Chuck

Type: Fighting

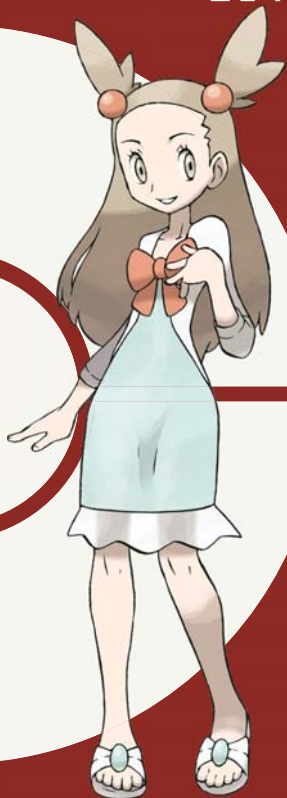

Even though his wife nags about how much time he spends at the gym, Chuck stays devoted to the traveling trainers. He meditates in the gym the entire day, waiting for any trainer worthy enough to challenge him. Flying, Psychic and Fairy Pokémon will deal the most damage. Bug and Rock will only deal half damage.

Olivine City

Leader: Jasmine
Type: Steel

Jasmine is very shy and compassionate toward Pokémon but as a trainer, she's tough as steel. Fire, Fighting, and Ground types will help knock out her Steelix. Grass, Ice, Flying, Psychic, Bug, Rock, Dragon, Fairy and other Steel types won't do much damage. However, Poison won't deal any damage at all.

Mahogany City

Leader: Pryce
Type: Ice

Being the oldest gym leader in the region, Pryce has been training his Pokémon for over fifty years. His power comes from his daily meditation that he does with his Pokémon. Fire, Fighting, Rock and Steel will deal the most damage. If you use another Ice type, you'll have a tough time defeating his Piloswine.
